

SENSOR SWITCH FOR KITCHEN AND WARDROBES 220 /V AND 12/ V

HIGH VOLTAGE CABINET IR SENSOR FOR 220V

- High Voltage IR door Trigger sensor for kitchen and wardrobe
- the IR sensor can be installed in cabinet or behind doors
- with this device the light inside the cabinet turns on or off automatically when you open or close cabinet door

key features:

- IR sensor High Voltage for cabinet lighting
- built in constant voltage driver
- detection range less than 10 cm

HIGH VOLTAGE CABINET IR WAVE SENSOR FOR 220 WATT

- High Voltage IR wave sensor Occupancy light on and off switch 220 V
- the IR wave sensor can be installed under the cabinet or skating area with this device
- it allows to switch on and off the light more freely by hand wave. it is ideally applied on the side exposed outside the furniture.

key features:

- IR sensor high voltage for expose outside the furniture
- built in constant voltage driver
- detection range less than 10 cm

IR DOOR TRIGGER SENSOR 12V

- Door Trigger ON/OFF sensor switch for LED lighting surface research mounting when you open the door the light will turn on and when you close the door the light will turn off

key features:

- 8 mm / 10 mm head easily can recessed / mounted in the carcass
- delay function mode ensures light from beginning to end
- each packed is provided mounting clip and screw
- detection range less than 10 cm
- It can make your furniture have smart function when you open the door the light will be on automatically

WAVE HANDSHAKE SENSOR 12 V

- IR wave sensor Occupancy light on and off switch 12 v
- The higher wave sensor can be installed under the cabinets or skirting area with this device
- Its allows you to switch on and off the light more freely by hand wave.
- It is ideally to be applied by the side exposed outside the furniture.

key features:

- IR sensor wave sensor for exposed outside the furniture.
- Detection range less than 10 cm

IN LINE DIMMER TOUCH CONTROLLER 12V

- touch dimming control automatically light off by short touch
- long touch to dimming Blue indicator light on at light suitable for mounting on the wall of closet , cupboard , cabinet , make - up desk
- short press on and off switch
- long press brightness dimmer
- for indoor use only cannot install in metal material
- **APPLICATION** : wardrobe , cabinet , wine cabinet , bathroom cabinet , bed furniture
- LED light dimmer sensor size round 17 mm mini size recessed
- load : 6W , working voltage ; DC 12V

LED SINGLE COLOUR WIRELESS RF REMOTE CONTROL 12V

- RF dimmer is a controller that can adjust brightness infinitely and change to flash
- its control mode is wireless control
- you could adjust light to the appropriate lighting business in accordance with your actual need
- LED single color wireless key RF remote control adjust brightness light control adjust brightness controller, LED dimmer switch for LED lights.
- Input- DC 12V
- Output - DC 12V
- Max load power-360W
- Max current - 30A
- Control - Remote
- Application- working with LED strip, LED, rigid bar or LED Module

MINI HF RADAR MOTION SENSOR LIGHT 12V / 220V

- microwave radar sensor switch
- the sensor is an active Motion detector
- it emits high frequency electromagnetic wave and receives their echo
- the sensor detects the change in echo from even the slightest movement in its detection zone
- A microprocessor than triggers the switch light on commands
- Detection is possible through doors panes of Glass on thin walls

LIGHT PIR MOTION SENSOR 12V

- PIR SENSOR switch is to be assembled into lighting features
- The lighting features can automatically turn on when any part of human body is approaching within 2 meters from the sensor
- The lighting feature equipped with the PIR sensor will stay on if the human's body stays within 2 meters from the sensor
- OFF; it will turn off 40 seconds after human body moves away from 2 meters

FURNITURE CABINET CUPBOARD PUSH BUTTON AC / DC 12V / 220V

- cabinet / wardrobe light switch door
- when the door is open the light is ON when the door is closed the light is OFF
- suitable for all kinds of cabinet doors, wardrobe, cabinet ,wine cabinet ,book cabinet, file cabinet, wall cabinet ,etc.
- can use this switch to control the cabinet lighting

DOOR CABINET SWITCH DC 12V

- cabinet wardrobe light switch door
- when the door is open the light is ON when the door is closed the light is OFF
- suitable for all kinds of cabinet doors, wardrobe, cabinet ,wine cabinet ,book cabinet, file cabinet, wall cabinet ,etc.
- can use the switch to control the cabinet lighting
